Summary

Computer Science student with hands-on experience building full-stack applications, automation tools, and AI-driven systems. Skilled in Python, JavaScript, and React, with practical experience in LLM fine-tuning and data annotation. Proven ability to deliver real-world projects including a file server, web scraper, and AI simulation tools.

Education

B.S. in Computer Science, Minor in Cinema, TV, and Media Production **September 2020 – December 2025**
Kutztown University of Pennsylvania

Skills

Programming: Python, Kotlin, JavaScript, C++, SQL, PostgreSQL, React, Docker, Web Hosting, Full-Stack

Relevant Courses: Network Programming, Software Engineering, IT Systems, Server-side & Client-side Web Development, Database Management, Human Computer Interaction, Computer Networks, Data Mining & Predictive Analysis

Work Experience

Data Annotation

Remote

AI Data Annotator – Contract

December 2024 – Present

- Annotated and evaluated datasets for multiple programming-focused AI systems, improving model accuracy and response quality.
- Analyzed and graded other annotator's work to ensure accuracy and quality.
- Rated AIs' abilities to accomplish coding related tasks effectively and efficiently.

USAID

Remote

AI Research Intern (VSFS)

September 2024 – March 2025

- Conducted research into new avenues for AI improvements in agriculture.
- Fine-tuned an LLM using LoRA to test a generalized agriculture chat bot.
- Researched the viability of vision transformers for pest and disease identification.
- Collected and recorded findings for a public presentation.

Projects

Artifice Alley – MTG Deck Builder & Playtester

- A full-stack Magic: The Gathering deck building and play testing web app. [Live Site ->](#)

File Server – Python

- A basic handshake file sharing system between a client and server.

Web Scraper – Python

- Built a Python web scraper that monitors Craigslist listings and automatically posts updates to Discord, enabling real-time deal tracking.

Bike Better – Kotlin

- A native Android navigation app for cyclists using the Mapbox SDK for Android.

Certifications

Full-stack Web Development (Udemy) – [Here](#)
